The screenshot displays a network management interface. At the top, there is a 3D visualization of a building with various rooms and corridors. Below this, there is a section titled "Licenses" with a table showing the number of licenses for different access points. The table has columns for "No", "Access Points", and "Cluster Active Seed". The "Access Points" column shows a value of 12. Below the "Licenses" section, there is a table titled "UPES" showing the status of various network devices. The table has columns for "Name", "Status", "Enabled", "None", "Full", and "10/100 Ether...". The "Status" column shows values like "Up" (green) and "Down" (red). The "Enabled" column shows values like "Enabled" and "Disabled". The "None" column shows values like "None" and "100". The "Full" column shows values like "Full" and "None". The "10/100 Ether..." column shows values like "10/100 Ether..." and "10/100 Ether...".

No	Access Points	Cluster Active Seed
No	12	Cluster Active Seed

Name	Status	Enabled	None	Full	10/100 Ether...
Up	Up	Enabled	None	None	10/100 Ether...
Down	Down	Enabled	None	None	10/100 Ether...
Down	Down	Enabled	None	None	10/100 Ether...
P06	Down	Enabled	None	None	10/100 Ether...
P07	Up	Enabled	100	Full	10/100 Ether...
P08	Down	Enabled	None	None	10/100 Ether...
